

AI Taiwan · Connecting the World **2026**

# TAIWAN BUSINESS ALLIANCE CONFERENCE

AD by MOEA

## Overview

Amid global economic shifts, Taiwan is leveraging its AI hardware strengths and emerging as an investment focal point. The Taiwan Business Alliance Conference – the Ministry of Economic Affairs' flagship event – brings global enterprises together and encourage partnerships for trusted supply chains.

## Theme and Focus

As geopolitical risks and U.S. tariff policies reshape global trade, supply chains are accelerating toward regionalization, with companies prioritizing resilience and trust. Taiwan, leveraging its strengths in semiconductors and ICT, has become the backbone of global AI hardware manufacturing, underscoring its trusted value through longstanding international partnerships.

The 2026 Conference, themed "AI Taiwan · Connecting the Globe," will showcase the Five Trusted Industry Sectors, Ten AI Initiatives Promotion Plan, and key incentives including the Invest Taiwan Three Major Programs 2.0, the Statute for Industrial Innovation, and R&D subsidies.

Senior executives from global investment institutions and multinational AI and semiconductor companies will share insights on industry trends, supply chain transformation, and Taiwan's strategic role. The Conference aims to position Taiwan as the preferred AI era partner—building trusted supply chains and reinforcing its role as a global AI industry hub.

## Collaboration with International Exhibitions

To help international investors engage with Taiwan's industrial ecosystem and unlock business opportunities through strategic partnerships, the 2026 Conference offers a one-stop platform for business expansion, complemented by technical seminars, innovation showcases, procurement matchmaking, and the AIoT International Forum to enable deeper engagement with Taiwan's industrial capabilities and facilitate meaningful business connections.

1. Direct access to Taiwan's ecosystem with over 250 companies from TEEMA, TPCA, and leading enterprises
2. Personalized business tours tailored to specific technical needs
3. Targeted procurement matchmaking for sourcing needs
4. Engagement with emerging technologies through the AIoT International Forum, startup showcases, and product launches

We sincerely invite global enterprises to join the 2026 Taiwan Business Alliance Conference and its related exhibition programs to co-create new value, capture emerging opportunities, and expand international partnerships.

The forum will be conducted in English, with simultaneous interpretation in Mandarin and English available on-site.
