Online Application

### INTRODUCTION

Taiwan International Healthcare Training Center (TIHTC) was established in 2002 by the Ministry of Health and Welfare (MOHW), and executed by Taipei Hospital, MOHW. In the past 19 years, TIHTC has successfully trained over 1,800 international healthcare professionals from 72 countries. The Center is now the top choice for international healthcare professionals to expand their network and pursue continuing education in the region.

### OBJECTIVES

Taiwan is well-known and ranked as the country with the most affordable and accessible National Health Insurance (NHI) in the world. The objectives of this program are to improve concepts and skills in healthcare management, the development of national health insurance policy, promote leadership and intellectual development in management of international healthcare affairs, and facilitate international exchanges on healthcare affairs. The course will cover the core health leadership and competitiveness in depth.

### LECTURE

- Medical Care & Public Health System in Taiwan
- Hospital Information System in Taiwan
- Hospital Financial Management & Decisions
- Healthcare Reform in Remote & Offshore Areas
- Quality of Care & Patient Safety
- Hospital Accreditation
- Long-term Care Service in Taiwan

## 2021 Emergency Care & Burn Injuries Management Online Project Training Program

Co-organized by  
Taiwan Society of Emergency Medicine and  
Taiwan Society for Burn Injuries and Wound Healing

- **Application Deadline: August 31<sup>st</sup>, 2021**
- **Training Period: Sep – Oct, 2021**
- **Nature of Training: This is an online training course that will contain 15hrs of self-paced videos and live classes**

### INTRODUCTION

Taiwan International Healthcare Training Center (TIHTC) was established in 2002 by the Ministry of Health and Welfare (MOHW), and executed by Taipei Hospital, MOHW. In the past 19 years, TIHTC has successfully trained over 1,800 international healthcare professionals from 72 countries. The Center is now the top choice for international healthcare professionals to expand their network and pursue continuing education in the region.

### OBJECTIVES

Emergency care is an essential part of the health system and serves as the first point of contact for the acutely ill and injured around the world.

In the New Taipei Water Park dust explosion incident in 2015, where over 500 patients were burned with an average body surface of 40%, the prompt emergency response and timely treatment managed to keep the death toll at a minimum. The objective of this program is to improve the concepts and skills in managing emergency care of the frontline healthcare providers.

### LECTURE

- Emergency Medicine Overview
- Emergency Department Management
- Introduction & Evolution of Taiwan Emergency Medical System (EMS)
- Emergency Medical Technician (EMT) Training & Protocol Development
- Dispatch System & Dispatch Assist CPR
- Large Scale Burn Care
- Wound & Scar Care
- Pain & Infection Control
- and more...

### VIRTUAL TOUR

- Burn Rehabilitation & Prevention Institution
- Emergency Department
- Fire Department
- Burn Center
- and more...

## 2021 Digital Health Online Project Training Program

- **Application Deadline: October 31<sup>st</sup>, 2021**
- **Training Period: Nov, 2021**
- **Nature of Training: This is an online training course that will contain 10hrs of self-paced videos and live classes**

Online Application

### INTRODUCTION

Taiwan International Healthcare Training Center (TIHTC) was established in 2002 by the Ministry of Health and Welfare (MOHW), and executed by Taipei Hospital, MOHW. In the past 19 years, TIHTC has successfully trained over 1,800 international healthcare professionals from 72 countries. The Center is now the top choice for international healthcare professionals to expand their network and pursue continuing education in the region.

### OBJECTIVES

The advent of an aging population and ICT development brought about the need for deeper integration between healthcare and digital technologies. Taiwan has long been renowned for its technological advancement as well as a comprehensive healthcare system around the world and has developed one of the world's largest national health banks ("My Health Bank" system) with the most coverage. In response to global trends, TIHTC is proud to announce the latest training course in digital health management to promote the digital development in the healthcare industry, and keep international healthcare professionals updated with cutting-edge systems and technology.

The course takes a deep dive into the current digital health trends, telemedicine, and health data management practices that cover the types of digital health systems, environment, organizational structures, human resource management, and case studies. Furthermore, the course will offer an introductory look at big data applications in smart health and the trends in digital health.

### LECTURE

- Introduction to eHealth System
- eHealth System Case Study
- Innovative Applications in Big Data Analysis on Health
- IoT & Digital Integration
- Cloud Computing & Big Data Analytics
- AI in Healthcare
- Smart Hospital
- and more...
